AeroTHON Track 1 Phase 2 - Payload details

Side view

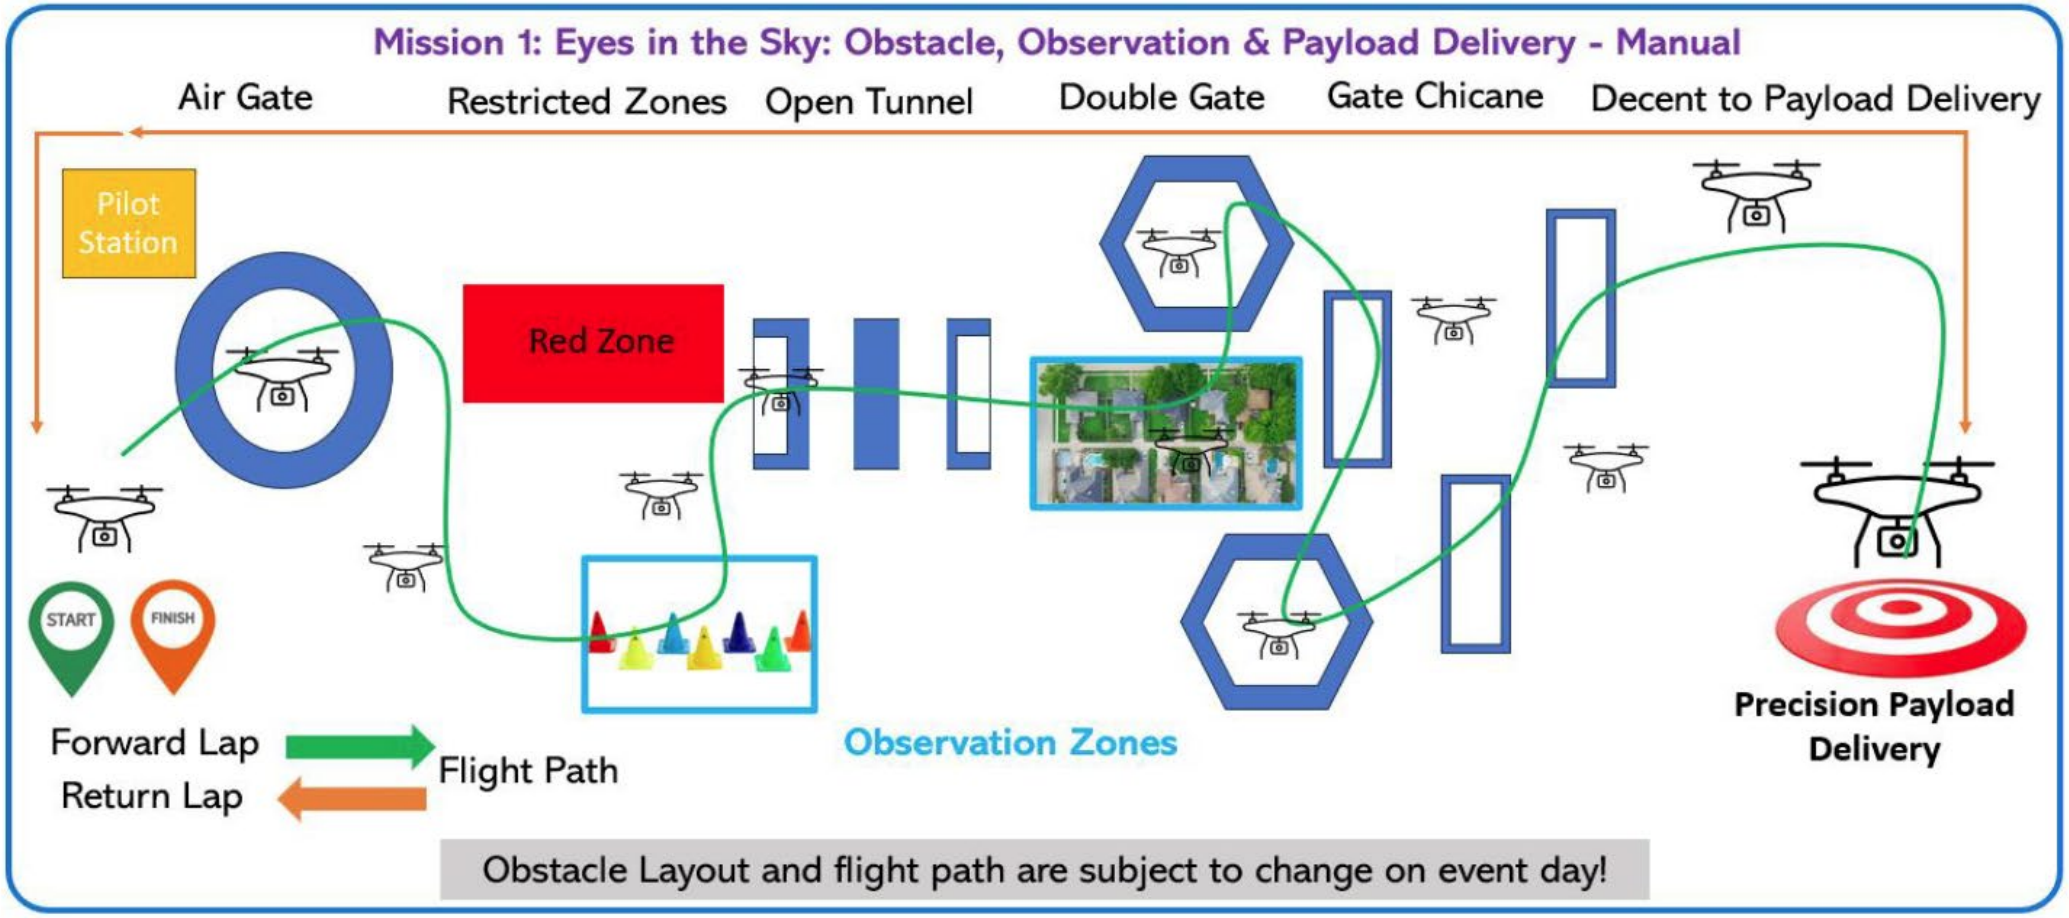

Bottom view

NOTE:
All dimensions are in mm
Weight = 100 ± 5 grams

Diameter of the hole cutout at the bottom of the payload is subjected to change as per the material density to meet payload weight requirements.

Manual Mission – Mission 1

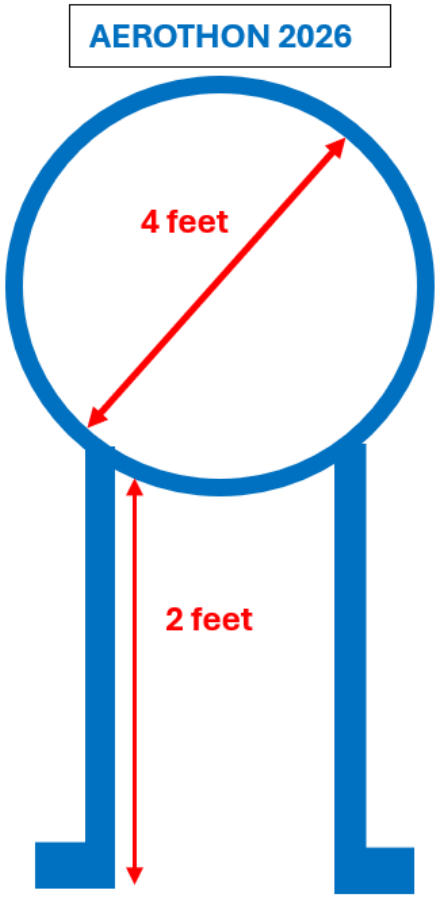

General Instruction

These requirements are provided solely for student awareness and to help team prepare and train their drones. The dimensions and specifications stated in this document are subject to change in the event day due to technical requirements, weather conditions, natural disasters, or other unforeseen circumstances. Any such changes will be communicated by the Technical Committee on October 29th during event registration.
